REALTIME BAND CONDITIONS WEB SITE :

The purpose of this experimental Web site is to provide 24-7-365 actual (REALTIME) band condition information to CW QRPp, QRPe and CW/SSB for Contesters interested in increasing their scores. It can also be of benefit to other Radio Amateurs to determine band conditions for Nets and casual QSO's. This information is NOT based on any software predictions or any kind of satellite based readings. It is based on a new Ionospheric sounding method called "HF Ionospheric Interferometry" which operates very similarly to the PolSAR system used by NASA.

Also, check out the VOACAP predication Web page at:

5A1A/5A1AL QSL CHANGE. Abubaker, 5A1AL, reports on QRZ.com: Beginning July 30, 2016, the QSL process for 5A1AL and 5A1A (1995-2001) will be through my QSL Manager, Randy - W5UE. He will also upload the QSO(s) to LoTW after the OQRS request is made.

There are still a few QSOs remaining on my paper logs. If your QSO(s) are missing in the online (OQRS) log, just send me a short email with the QSO(s) details, and I will work with my QSL Manager to resolve the missing contact.

I would like to thank all of my amateur radio friends who have supported me and enabled me to keep 5A on the air under these unstable and unsafe conditions that we are experiencing. A special thanks to AB6Z, W5UE, W6GJB, N6TA, W6PK, K6MKF, K0YQ, N6RK, N6NU and K5AZZ for their support and encouragement.

I apologize if I have left any one of my dear friends and supporters off this list.

TL, CENTRAL AFRICAN REPUBLIC (Update). Ken, LA7GIA, will be active as TL8AO from Bangui between November 10-22nd. Ken already has his license and has received his LoTW certificate. Activity will be on 80-15 meters (possibly 10m as well, no 160m) using mainly CW (SSB on 20/15m). He states on his Web page the following:

- * TL8AO is primarily a Single-Op DXpedition.
- * The QSO target is 15,000 Qs -- in 10 full days
- * His goal is to generate as much donations possible where 100% of donations received will be given to the DWOB (Doctors Without Borders).
- * First ALL donations are voluntary - there is no expectation that you donate. See his Web for more details.
- * He likes to keep the DXpedition and the Humanitarian fund-raising as two separate issues. He tries to generate donations to the humanitarian fund-raising only. BUT, he still encourages the DXers to work him on as many band slots and modes as possible.

The complete log will be uploaded to LoTW the same day he returns from TL. The log will also be on ClubLog. OQRS to be activated, and QSL Manager is Charles, M0OXO. Look for more details/updates on his Web page at:
